Career Objective

Aspiring to secure a challenging role in a dynamic environment where I can apply my passion for Java programming and SQL expertise to drive innovation and contribute to impactful projects. Committed to continuous learning and skill enhancement, I aim to deliver high-quality solutions, foster effective teamwork, and stay updated with the latest developments in software technology. Eager to advance professionally and add significant value to the organization.

Education

New Horizon College of Engineering Computer Science of Engineering BE CGPA: 8.9	Bangalore Nov 2021 - Present
Narayana Junior College Degree in 12th Grade Percentage: 92.4%	Hyderabad May 2019 - Mar 2021
Sri Chaitanya EM High School Degree in 10th Grade GPA: 9.5	Kurnool June 2018 - Mar 2019

Experience

Vault of Codes Java Programming	Bangalore, India Oct 2023 - Nov 2023
Interned at Vault of Codes, After completing an internship in Java programming, I was able to put my practical abilities to use and complete two projects: an easy-to-use password strength indicator and a comprehensive hotel management system.	

Skills

Programming Languages:	Java, C, Python, Html, CSS
Libraries/Frameworks:	JavaScript
Tools / Platforms:	Linux, Android Studios
Databases:	SQL

Projects / Open-Source

Stock management System	Java , SQL
Developed Stock Management System , With the help of Java and SQL, I have created a stock management system that makes inventory tracking and administration easier. By facilitating smooth CRUD operations on inventory objects, the system improves resource usage and organizational productivity.	
Word Scramble Game	HTML, CSS, JavaScript
Developed the "Word Scramble Game" project with HTML, CSS, and JavaScript to create an interesting game experience. This fascinating online game mixes fun and education by having players solve scrambled words under a time limit..
